

Texas Temperature, Freeze, Growing Season and Precipitation Records by County

Data below are the latest mean compilations and reflect data compiled during 1981–2010. Weather stations shown in *italics* do not measure all categories and some data are from the period 1971–2000. An asterisk (*) preced-

ing a record high or low or rainfall extreme denotes a figure that also occurred on an earlier date. *Source: Texas State Climatologist, Texas A&M University.*
